Bernardin, Lochmueller and Associates, Inc (BLA)

Senior Transportation Modeler

Bernardin, Lochmueller and Associates, Inc (BLA) - a major Midwest regional planning, environmental, engineering firm - currently has a position open for a Senior Transportation Modeler in our St. Louis, Missouri office. The Senior Transportation Modeler will be responsible for the development of advanced transportation models to support a variety of traffic engineering, transportation forecasting, and planning project applications. The successful candidate must be an experienced traffic simulation and travel demand modeler with emphasis on model development including scripting and coding of model formulations. This position requires the ability to independently analyze and develop solutions to complex modeling problems under limited supervision and to provide guidance to less experienced staff.

Expertise in several software packages such as VISSIM, VISUM, Cube, TransModeler, or TransCAD is required. Experience with GIS and statistical analysis is desirable. The successful candidate must have a bachelor’s degree in Civil Engineering, Urban Planning, Mathematics, Computer Science, or a related field. A master’s degree and registration as a Professional Engineer is preferred.

The candidate should have a minimum of 7 to 10 years of progressive experience, including experience managing and coordinating multiple projects. Excellent oral and written communication skills are required.

Please submit your resume to hr@blainc.com or 6200 Vogel Road, Evansville, IN 47715.
